of Rs. 2,500 has been promised by the devotees and the bonds executed by them are lodged in the Treasury. It is requested that the amount may be collected from the Puduvatdars and arrangements made for the conduct of puja service and the payment of allowance to the temple servants from the interest accruing from such principal.

Reply of Government.—Will be inquired into in the Muzrai Department.

Subject No. 390.
Improvement of Attigodukere
Mr, H. C. Subba Rao.

Summary of Representation.—The improvement of Attigodu tank is much desired. A very large shandy is held there. The tank being shallow it does not retain all the water coming to it, but drains off into the waste weir to the prejudice of the shandy people in hot weather. Pray that the waste weir be raised by 2 feet and the bund strengthened with side embankments. The shandy is held in the centre of the village. Thefts are of very common occurrence and the chances of detection are rare as the houses are close by and the thieves find shelter in them. In the interests of the people it is desirable that the present shandy be removed to the "Tandri Tope" attached to the village which is an open ground and is on a higher level.

Reply of Government.—Will be inquired into by the Public Works Department.

Subject No. 391.
Extension of Alalukatte south channel.
Mr. Narasinga Rao,

Summary of Representation.—The extension of the Alalukatte south channel attempted long ago seems now to have been given up. It has cost Government more than Rs. 50,000. The abandonment of the project has told seriously both upon Government and the raiyats. Pray that the project may be re-considered and sanctioned and the work completed soon.

Reply of Government.—The project has been abandoned as, if it is carried out as well as the Mandgere Channel extension, the supply in the Cauveri would be seriously affected. (*Vide* remarks against Subject No. 366.)
